(Air travel will be personalized for each guest, though we will give recommendations based on the host travel.)

7 First-Time Travel & Skiing Tips

1. **Dress in Layers** 
Winter weather can change quickly. Wear a base layer, warm middle layer, and waterproof outer layer so you can adjust throughout the day.
2. **Bring Water Proof Gloves, Socks, and Ski Goggles** 
Your hands and feet will thank you! Regular cotton gloves and socks can get wet and cold quickly. They will sell all this and more there at the resort also, but it will be at a higher price.
3. **Don't Be Afraid to Take a Lesson** 
If you've never skied before, a beginner lesson is one of the best ways to learn the basics, build confidence, and stay safe. Professional Lessons are sold separately through the resort.
4. **Take It Slow — The Mountain Isn't Going Anywhere!** 
Start on the beginner slopes and work your way up. Your first day is about learning and having fun, not racing down the mountain. Canadian Ski hills are real.
5. **Pack Smart, Not Heavy** 
Bring the essentials and leave room for souvenirs. For Weed smokers it is legal and there are plenty of dispensaries in Canada.
6. **Stay Hydrated & Eat!**  
Cold weather and skiing can be physically demanding. Take breaks, drink plenty of water, and keep some snacks nearby.
7. **Have Fun & Enjoy the Experience!** 
Take pictures, try something new, meet people, explore Toronto, and make memories.
Your first ski trip only happens once!
